309 SMXG OVERVIEW

The 309th Software Maintenance Group is a highly successful organization with a proven performance record. Based on project data, 309 SMXG provides more software and engineering services for the money than industry peers.

As one of the first CMM/CMMI Level 5 (1998/2006) organizations in the Department of Defense, we are experts at providing low-cost engineering solutions and high-quality products!

We are customer and user oriented!

We are experts in applying DoD regulations and standards!

We Can Support Your Development and Sustainment Needs...

- Flight Line and Automatic Test Software
- Hardware Design
- Simulation and Emulation
- Software Engineering
- Web-Based Design
- Technology Updates
- Mission Planning
- Consulting Services
- Configuration Management
- Systems Engineering

On a Wide Range of Systems and Products...

- Avionics
- Automatic Test Systems
- Electronics
- C3I
- Weapons
- Web-Based Products
- Embedded Systems
- Space and Missile Systems
- Ground Support Equipment
- Flight Line Test Systems

TECHNOLOGY UPDATES

- Over 1,000 Highly Skilled, Dedicated Personnel
- State-of-the-Art Equipment and Facilities
- Over 25 Years of Corporate Experience
- Diverse Spectrum of Weapons Support
- Quality Recognized Worldwide

A World-Class Software Development Organization

World-Class Capability

The 309th Software Maintenance Group at Hill Air Force Base is a recognized world leader in ‘cradle-to-grave’ systems support, encompassing software engineering, hardware engineering, program management, data management, consulting, and more.

World-Class Experience

With over two decades of expertise in weapons system and support software, hardware, and systems engineering, 309 SMXG has the right people, technology, and processes to support a myriad of systems in any lifecycle phase.

World-Class Recognition

In 1998 and again in 2006, 309 SMXG achieved Level 5 on the Software Engineering Institute's Software Capability Maturity Model® and Capability Maturity Model Integration.® We are also a registered AS9100/9110 organization.
